

1. Rationale

The Simcoe County District School Board attempts to provide the facilities, equipment and resources needed to support sound educational programs in its schools. The Board recognizes however, that it is not economically feasible to provide everything which schools or school communities may find desirable. Since it is also a fundamental objective of the Board to promote a mutually supportive relationship between the educational community and the community, the Board wishes to encourage community groups, organizations and individuals to assist the Board in providing material and financial resources to schools which otherwise might not be available.
