

Health & Wellness – Bear Creek Secondary School

The Bear Creek Community and Health Care SHSM, provides students with the chance to explore career opportunities in support care roles. Students will participate in certifications, training and workshops specific to this field of work. These opportunities include working in health care facilities, retirement residences and public education throughout Barrie and surrounding areas. Students who are considering post secondary destinations in social work, medical, nursing, dental, personal support care, geriatrics, developmental services or teaching and early childhood education would be interested in this specialized program.

For more information, please contact the Guidance Department at (705) 725-7712.
